PROFESSIONAL PROFILE

Data Science undergraduate at SLIIT with a strong interest in data analytics, machine learning, and full-stack web development. Hands-on experience in data analysis, preprocessing, model building, and building desktop and web applications through academic and personal projects. Passionate about transforming data into meaningful insights and building functional, user-centred solutions.

PROJECTS

Personal Portfolio Website

Technologies: HTML5, CSS3, JavaScript, Font Awesome, Google Fonts, CSS Variables

- Designed and developed a fully responsive single-page portfolio website with dark/light mode toggle and smooth scroll navigation.
- Built a multi-section layout covering projects, skills with animated progress bars, a certificate gallery with modal viewer, and a contact section.
- Implemented vanilla JS page routing, scroll-spy active nav highlighting, and a hamburger menu for mobile responsiveness.

Task Manager - Desktop Productivity App

Technologies: Python, CustomTkinter, Tkinter, JSON, File Handling, OOP

- Built a modern desktop Task Manager with a clean GUI using CustomTkinter featuring task creation, deletion, and persistent JSON storage.
- Implemented priority labeling (High / Medium / Low) with color-coded task rows and a real-time search bar that filters tasks as the user types.
- Added dark/light mode toggle and a 'Clear Completed' feature; applied OOP architecture with a dedicated Task class and save/load functions.

AegisFit - AI Powered Gym & Fitness Platform

Technologies: React 19, Vite, Node.js, Express.js, MongoDB, Mongoose, JWT, bcrypt, REST API

- Full-stack gym management platform with role-based dashboards for Members, Coaches, Gym Owners, and Admins.
- Features an AI meal planner with persistent history, drag-and-drop workout builder, calendar booking, fitness challenges, XP & badge system, and live chat.
- Implemented dual-database architecture supporting MongoDB with automatic local JSON fallback.

JobTracker - AI Powered Job Application Tracker

Technologies: React.js, TailwindCSS, Node.js, Express, MongoDB, Python Flask, JWT

- Built a smart job application management platform with AI resume analysis and real-time tracking.
- Combined an AI-driven resume analyzer with a live analytics dashboard and a dedicated admin portal for application oversight.

Pink Petals - AI Skincare Platform

Technologies: React+Vite, Spring Boot, Flask, XGBoost, SMOTE, MySQL

- Developed an AI-powered skincare e-commerce platform with two integrated ML pipelines.
- Combined a 7-day sales forecast model (XGBoost, $R^2=0.78$) with a product recommendation classifier (ROC AUC=0.81) using SMOTE for class balance.

Data Analytics Internship Showcase

Technologies: Python, scikit-learn, NLTK, TextBlob, Power BI, Chart.js

- Built an interactive single-page portfolio showcasing 7 end-to-end analytics projects from a Data Analytics Internship.
- Featured live Chart.js explorers across 6 datasets with 3-level project filtering for interactive data exploration.

Wine Quality Forecasting

Technologies: Python, scikit-learn, pandas, KNN, StandardScaler

- Built a binary classification system predicting wine quality as 'Good' or 'Bad' based on physicochemical properties.
- Evaluated 6 ML models; Random Forest achieved the best accuracy at 81.9%, outperforming KNN and other baseline classifiers.

CinePass - Movie Ticket System

Technologies: MERN Stack, React Native, Node.js, Express.js, MongoDB, JWT

- Developed a first mobile cinema booking platform with real-time seat selection and admin management.
- Featured automated seat layout generation and promotional discount codes alongside full booking history tracking.

Highway Bus Tracker

Technologies: React Native, Expo Router, TypeScript, Safe Area Context, Reanimated

- Built a full-stack mobile bus tracking app for Sri Lanka with live GPS tracking and a complete booking journey.
- Delivered route-aware live tracking and seat booking with payment flow across 10 screens.

Vehicle Rental System

Technologies: Java Servlets, Apache Tomcat, MVC Architecture, OOP, HTML, CSS, JavaScript

- Designed and developed a web-based management system to handle vehicle listings, rental requests, and automated bookings.
- Implemented OOP design principles and MVC architecture to ensure clean separation of concerns and efficient CRUD operations.

Web-Based Medicine Ordering System

Technologies: Java, Spring Boot, Spring Security, SQL, Thymeleaf, HTML, CSS, JavaScript

- Engineered a full-stack application to streamline pharmaceutical transactions including product catalogs and secure order processing.

- Developed a robust backend with role-based access control (RBAC) and applied the DTO pattern for optimised API communication.

EDUCATION

Sri Lanka Institute of Information Technology (SLIIT)

2024 - Present

BSc (Hons) in Information Technology - Specializing in Data Science

Year 3 | CGPA: 3.22 / 4.0

Ku/ Maliyadeva Balika Vidyalaya

2009 - 2023

G.C.E. A/L (2023/24) - Physical Science Stream | G.C.E. O/L (2019) - 7As 1B 1C

CERTIFICATIONS

- Introduction to Data Analytics - Simplilearn SkillUp 2026
- Free Data Analyst Course - Simplilearn SkillUp 2026
- Power BI for Beginners - Simplilearn SkillUp 2026
- Introduction to SQL - Simplilearn SkillUp 2026
- Machine Learning using Python - Simplilearn SkillUp 2026
- Free Full Stack Developer Course - Simplilearn SkillUp 2026
- MongoDB Data Modeling Path v1 - MongoDB 2026
- Building GenAI Apps Learning Badge - MongoDB 2026
- AI Agents with MongoDB - MongoDB Skill Badge 2026
- AI/ML Engineer Stage 2 - SLIIT 2025
- AI/ML Engineer Stage 1 - SLIIT 2025
- Java Programming - UniCAT 2024

SKILLS

Programming: Python, Java, JavaScript, TypeScript, C/C++, SQL, HTML/CSS

Frameworks & Libraries: React, React Native, Node.js, Express, Spring Boot, Flask, TailwindCSS, CustomTkinter, pandas, scikit-learn, XGBoost, LangChain

Databases & Tools: MongoDB, MySQL, Git, JWT, Power BI, Chart.js

AI / ML: Machine Learning, Data Mining, NLP, LLM Integration, AI Agents (MongoDB)

Desktop Dev: Python GUI (CustomTkinter/Tkinter), OOP Architecture, JSON File Handling

Soft Skills: Problem Solving, Teamwork, Leadership, Effective Communication, Critical Thinking

EXTRA-CURRICULAR & CLUBS

- Batch Representative - SLIIT (2024 - 2026)
- IEEE Student Branch of SLIIT
- Cadet Platoon CPL (2020) | Cadet (2017-2019)
- Member: School Chess Team (2009-2012), Scrabble Team (2014), Swimming Team (2014)
- Member: School Media Unit (2014), Astronomical Society (2020), ISA Project (2017)
